Portfolio

Professional Summary

Full Stack Developer with 1.5+ years of experience building production-grade SaaS platforms, HRM systems and enterprise dashboards using the MERN stack. Proven track record of shipping scalable, high-performance applications end-to-end – from database design to deployment – across B2B portals, industrial automation dashboards and role-based enterprise systems used across multiple organizations.

Technical Skills

- **Languages:** JavaScript, TypeScript
- **Frontend:** React.js, Next.js, HTML5, CSS3, Tailwind CSS, Vite
- **Backend:** Node.js, Express.js, MongoDB, MySQL, PostgreSQL, Cron Jobs
- **DevOps & Cloud:** AWS (CI/CD), Docker, GitHub, Nginx, Vercel, Hosting
- **State Management:** Redux, RTK Query, TanStack Query

Experience

Full Stack Developer – Dynaclean Industries Pvt Limited

Mar 2026 – Present

- Built and deployed a company-wide CRM using the MERN stack with TypeScript, serving 250+ active users across departments.
- Owned end-to-end development – REST APIs, JWT-based authentication, frontend UI, database schema – as sole full stack developer.
- Automated salary slip generation from attendance data, eliminating manual payroll processing for 250+ employees.
- Managed production deployments, testing and Git-based version control, ensuring zero-downtime updates on live releases.

MERN Stack Developer – ITSYBIZZ (Powered by Deepnap Softech)

Jul 2025 – Mar 2026

- Developed a B2B SaaS platform from scratch using the MERN stack, covering both client and admin-facing modules.
- Built REST APIs and an HRM system with payroll, leave management and role-based access control (RBAC) for multiple user roles.
- Optimized MongoDB queries and backend API structure, improving overall response times and reducing server load.

Web Developer – Einfratech Systems India Pvt Ltd

Jan 2025 – Jul 2025

- Migrated a legacy LMS from PHP to the MERN stack, modernizing the codebase and architecture with Git-based collaboration.
- Developed admin dashboards, REST API endpoints and authentication modules for the migrated platform.
- Re-engineered frontend rendering and API calls, cutting page load time by up to 75%.

Projects

ApnaTenant – PG Management Platform

[Link](#)

Full-featured PG/hostel management platform built with the MERN stack, enabling owners to manage tenant onboarding, room allocation and vacancy tracking. Includes automated rent tracking with due-date reminders, secure JWT-based authentication, and a dashboard to monitor occupancy and payment status in real time.

Sopas B2B Platform

[Link](#)

B2B marketplace connecting vendors and buyers through a subscription-based ordering workflow. Features a searchable product catalog, order placement and tracking, and role-based access control separating vendor and buyer dashboards.

HRM System

[Link](#)

End-to-end HR management system covering payroll processing, attendance tracking with check-in/check-out logging, multi-level leave approval workflow, and RBAC for admins, HR staff and employees.

Dynaclean CRM

[Link](#)

Company CRM built with the MERN stack featuring IP-based login restriction (office WiFi only), automatic salary slip generation from attendance for 250+ employees, individual check-in/check-out rules with auto absent/half-day marking, and purchase-to-statement linking for reconciliation.

JP Minda Digitization Software

[Link](#)

Enterprise workflow digitization software with a MySQL backend, converting manual paper-based processes into a structured digital system.

Kontrolix PLC Automation Dashboard

[Link](#)

Real-time PLC machine monitoring dashboard displaying machine-wise production count and efficiency.

ApniShop Client Project

[Link](#)

Daily transaction and monthly profit tracking platform built using the MERN stack for a client business.

Dynaclean Industries Website

[Link](#)

Responsive company website for Dynaclean Industries showcasing products, services and business information.

Certifications

- AWS Cloud Certification – Honeywell Empowerment Program
- UI/UX Design – NASSCOM Foundation
- Interview Skills – TCS iON

Education

B.Tech – Computer Science Engineering

2020 – 2024

Dr. A.P.J Abdul Kalam Technical University, Lucknow

CGPA: 6.34
